Mr Leslie Ter Morshuizen

Leslie holds an MSc in Ichthyology from Rhodes University and a BSc in Zoology and Geology. He is an aquaculture farmer, consultant and trainer with 28 years of experience from Ghana to Bahrain, and from South Africa to Georgia. He managed and owned farms producing tilapia, catfish, trout, eels, ornamental fish and aquaponics. Mr Ter Morshuizen designed farms to a maximum size of 5 000 tons p.a. and constructed farms in South Africa, Angola and Zambia. He established numerous farms and two Satellite Grower programmes. Leslie is a Founding Chair of the Aquaponics Association of southern Africa and the Catfish Growers Association of South Africa, as well as a committee member of the Aquaculture Association of southern Africa. He started and managed a property investment company and is a co-founder and current director in a large-scale catfish farm.
